

United States observations of ship movements in and out of Cuba generally confirm the PRIVDA report that four Soviet ships have left Cuba and that the Soviet passenger ship Natshimov is currently in Havana harbor and is loading passengers. The four ships which left were the Baltika, the Gruziya, the Baykal and the Kalinin. United States observations indicate that these ships ~~left with roughly the normal passenger capacity of some 1350~~ *left with roughly the normal passenger capacity of some 1350*.
